MARCH 2, 1891.

I hereby certify that the foregoing is a true and correct statement of the treasury of the town of Rumney,

G. L. BILLINGS, *Treasurer.*

We have examined the foregoing account of the town treasurer and find it correctly cast and properly vouched.

GEO. P. COOK, }
A. K. GEORGE. } *Auditors*

Rumney, N. H., March 2, 1891.

SCHOOL REPORT.

In presenting to the citizens of Rumney my annual report of the schools, I will say, that I do not write all that I would because I am convinced that should I attempt to do the necessities of the schools justice, time would fail me and your patience would be exhausted long before I had finished. I regret to say that I have not found your personal interest in the schools all that it ought to be. In many cases you have been too much interested in the earnings of a few dollars by your children and *not enough* interested in *their* education to afford the advantages of a few weeks of school in the year. I have learned from my experience with your schools that full as much depends upon you as parents and citizens as upon the teachers. Yes, more; your responsibility is increased, even as your advantages are greater. Parents and teachers should co-operate to attain success. Many children and schools are spoiled, simply because they are not rightly understood. It is an old adage and nevertheless a true one that the "Boy is Father to the Man," but it is not less true the Home is Parent to the School. It is in the home that the foundation (character and disposition) is laid, and it is the teachers office to build upon that structure; he has none other upon which he can rear it. Parents should look well to the home influence, the home discipline, and remember that "eternal vigilance is the price of success." To censure the teacher for every garbed report or trifle that arises in connection with school is a bad practice and has a tendency to injure the best of schools. For parents to visit schools oftener would be a better plan, for you would not only learn the condition and worth of the school, but would show an interest in the studies of your children and give them confidence and encouragement, to help them along in the path of knowledge. I have been disappointed somewhat in the advancement made in several of the schools where better results should have been accomplished. We have been successful in securing the services of some excellent teachers who have taught in a very thorough, careful, and thoughtful manner with good results.

Miss E. E. Fulton taught the three terms in No. 2. The first two terms showed earnest effort on the part of the teacher and the

register showed a good attendance. The last term shows a falling off in the interest of the school.

The Summer term in No. 3 was taught by Miss Ardie J. Buzzell. Order good and a fair degree of interest. Miss Lettie G. Wells took charge of the Fall and Winter terms, and although this was her first experience in teaching, she was a success in the school.

In No. 4 the first term was taught by Miss Alice M. Williams in such a manner as to ensure success. Miss Mary Smart taught the following terms and labored faithfully for the good of her pupils and success crowned her efforts.

The teacher in No. 5, Miss D. L. Berry, was perfectly at home with her scholars and the school was very orderly and profitable. Mr. H. A. Elliott taught the Fall term of eight weeks, but did not meet with the success we desired, and was succeeded the next term by a former teacher, Mr. J. B. Foster, who conducted the school in a successful manner. I was much pleased with appearance of the scholars in this school.

The Summer term in the village was taught by C. W. Marston, assisted by Miss C. F. Elliott. It was thought necessary by the school-board to divide the school into two grades, as no one teacher can do justice to so many classes as there are in this school, and not having accommodations for two schools at the same time, the Fall term was devoted to the smaller scholars and Miss C. F. Elliott placed in charge who well sustained her high reputation as a teacher. The winter term, for the interests of the larger and more advanced scholars, was taught by C. W. Marston. This was one of the pleasantest of the 13 terms spent with this school. As to the success attained, I leave it to others to judge.

The board were fortunate in securing the services of Mrs. W. D. Baker for the Summer term in No. 7, who was the right teacher in the right place. Miss Ardie J. Buzzell taught the next two terms. Two unruly pupils were expelled by the teacher, which action was fully sanctioned by the school-board. On the whole the second term was fairly successful. In regard to the third, I have nothing to say. The school house ought to be newly plastered and otherwise repaired then kept neat and clean.

Miss Mary A. Smart taught the Summer term in No. 8 in a satisfactory manner. Miss Belle N. Annis taught the Fall and Winter terms. The lack of thoroughness was the greatest fault of the teacher. The school appeared very well when I last visited it.

The school in No. 9 was taught by Miss Etta C. Pease, who labored hard and earnestly for the interests of the school, and those who attended regularly made good progress. The same teacher for the year. The records of this school for a number of years past show a very poor attendance.

The recent law passed in making text books free meets our hearty concurrence although it is attended with additional labor and responsibility to teacher and school-officers. Scholars that have previously been poorly provided with books and other materials, have the past year been well supplied with everything necessary for school work. I would suggest that a larger amount of money be raised for the support of schools another year and fewer schools established. A new school building conveniently located to accommodate Nos. 2, 3, and 6 would prove an advantage over the present facilities. It will be necessary to support two schools in No. 6 the coming year and some provision for this is necessary to be made. No. 2 needs repairs. Nos. 4 and 5 to be newly painted.

The whole amount of school money raised from all sources for the past year was \$1,380.88. The enumeration of scholars for the year 1890 as taken from the school registers is as follows: Whole number of boys, 113; whole number of girls, 124; whole number of pupils, 237.

I hope the foregoing report will meet with all due indulgence from parents, teachers and scholars as I have been guided wholly by my sense of duty towards them and the community at large, and prompted by one motive, viz., to be of service, and have entertained the purest sentiment of friendship and regard to all concerned. Thanking teachers and scholars who have shown me the utmost kindness, I will close my report of schools for the past year.

Respectfully,

C. W. MARSTON, *Visiting Committee.*
